

CELEBRATING FIFTY YEARS OF ENVIRONMENTAL EDUCATION

50TH ANNUAL
CONFERENCE 18TH ANNUAL
RESEARCH
SYMPOSIUM

POWER OF CONNECTION

Welcome to the 18th Annual NAAEE Research Symposium, October 7-8, 2021!

Dear friends and colleagues:

We are delighted to come together for the 18th Annual NAAEE Research Symposium. This yearly event brings together over 200 new and experienced researchers from around the globe creating invaluable synergy and momentum!

Once again, we come together as a community to dialogue and engage with one another. The Symposium is an opportunity to explore new ideas, question the status quo, and connect with others around EE research through posters, workshops, paper presentations, panel discussions, and roundtables. Over two days, the 2021 Research Symposium will provide a range of opportunities that will spark your interest. We will gather as a community and also meet our stellar leaders offering keynotes and closing plenary thoughts.

Join us at the Research Symposium in October and feel the power of connection.

We look forward to your participation!
