RESEARCH SYMPOSIUM:
SESSION FORMATS & DELIVERY OPTIONS

Delivery Options

In-Person Sessions:

- Scheduled and presented once during the two-day symposium (October 11–12) in Tucson (between 8:30 AM and 5:00 PM Mountain Standard Time; Tucson does not observe Daylight Saving Time.)
- Must have at least one registered in-person presenter but may include prerecorded segments to help accommodate international presenters in different time zones and those unable to attend in person
- Will not be recorded for on-demand viewing after the symposium and are available only to those joining us in Tucson

Virtual Live Sessions:

- Scheduled once and presented live via Zoom during regular symposium hours (8:30 AM–5:00 PM Mountain Standard Time)
- Available to both virtual and in-person attendees
- Will be recorded for on-demand viewing after the symposium

Virtual Prerecorded Sessions:

- Must be prerecorded and submitted as mp4 files with accompanying PDFs **by September 16** to allow time for posting
- Available throughout and after the symposium for on-demand asynchronous viewing (no scheduled presentation time)

See following chart for a summary of delivery options.

Research Workshops	✓ (60 minutes)	✓ (60 minutes)	(not available)

Session Formats

Research Panel (In-person, live virtual, or prerecorded virtual): In research panels, three or four presenters focus on a question or challenge related to EE research and explore it from various perspectives. These 45-minute sessions include short presentations by each panelist, reserving at least 15 minutes for discussion with attendees.

Research Poster (In-person): Posters offer a venue for sharing and discussing completed studies on a range of topics, methodologies, approaches, and challenges in EE research. They are two-dimensional printed presentations most often created using Adobe InDesign or Illustrator, Microsoft Publisher, Microsoft PowerPoint, Canva, and similar applications. Posters may be up to 36 x 48 inches in size and displayed on portable bulletin boards for in-person attendees to review at leisure throughout the symposium. Presenters will have a chance to pitch their posters and stand beside them to answer questions during one of two scheduled poster sessions.

Research Presentations (Prerecorded virtual): Research presentations are short (up to 10 minutes) prerecorded presentations that focus on completed or ongoing research designed for on-demand asynchronous viewing through the online portal. These sessions may include video abstracts, narrated PowerPoint presentations, or other formats within the 10-minute allotment. Presenters are required to upload associated mp4 and PDF files by September 16.

Research Roundtable (In-person or live virtual): Roundtable discussions center on reviews, questions, and challenges related to EE research. The 45-minute session begins with a brief presentation to frame the topic, followed by a spirited group discussion. Multiple roundtables are scheduled simultaneously in the same large room for in-person attendees; virtual roundtables will be held live via Zoom for virtual or in-person attendees.

Research Workshop (In-person or live virtual): Research workshops are skill-building sessions intended to help develop critical competencies related to EE research. These interactive 60-minute sessions have multiple presenters/facilitators.
